

Program

CO₂ Summit II: Technologies and Opportunities

April 10–14, 2016

Santa Ana Pueblo, New Mexico, USA

Conference Chair

Holly Krutka

**Formerly Shenhua Science and Technology Research Institute
Tri-State Generation & Transmission Association, Inc.**

Conference Co-Chair

Frank Zhu

UOP/Honeywell

Engineering Conferences International

32 Broadway, Suite 314

New York, NY 10004, USA

Phone: 1-212-514-6760

www.engconfintl.org – info@engconfintl.org

Hyatt Regency Tamaya Resort and Spa
1300 Tuyuna Trail
Santa Ana Pueblo, New Mexico, USA, 87004
Tel: +1 505 867 1234

Engineering Conferences International (ECI) is a not-for-profit global engineering conferences program, originally established in 1962, that provides opportunities for the exploration of problems and issues of concern to engineers and scientists from many disciplines.

ECI BOARD MEMBERS

Barry C. Buckland, President
Mike Betenbaugh
Nick Clesceri
Peter Gray
Michael King
Raymond McCabe
David Robinson
Eugene Schaefer
P. Somasundaran

Chair of ECI Conferences Committee: Nick Clesceri

ECI Technical Liaison for this conference: Norman Li

ECI Executive Director: Barbara K. Hickernell

ECI Associate Director: Kevin M. Korpics

Organizing Committee

Robin Batterham, University of Melbourne
Debangsu Bhattacharyya, University of West Virginia
Carl Bozzuto, Alstom
Mahmoud El-Halwagi, Texas A&M University
Rosemary Falcon, University of Witwatersrand
Maohong Fan, University of Wyoming
L.S. Fan, Ohio State University
José Figueroa, US DOE, NETL
Klaus Lackner, Arizona State University
Srikanta Mishra, Battelle
Edward Rubin, Carnegie Mellon University
Berend Smit, University of California, Berkley
Bill Steen, AECOM
Peng Pei, University of North Dakota
Chang Wei, National Institute of Clean and Low-Carbon Energy
Robert Williams, Princeton University
Jennifer Wilcox, Stanford University
Ligang Zheng, Natural Resources Canada

Conference Sponsors

AECOM

American Electric Power

**Beijing-based National Institute of Clean and Low-Carbon Energy
(NICE)**

Cornerstone, The Official Journal of the World Coal Industry

National Rural Electric Cooperative Association

Oglethorpe Power Corporation

Shenhua Group

Southern Company

Tri-State Generation and Transmission Association, Inc.

XPRIZE Foundation

Sunday, April 10, 2016

- | | |
|---------------|---|
| 16:00 - 18:00 | Conference Check-in (Mountain View Foyer) |
| 18:00 - 19:00 | Opening Reception (Tamaya Veranda) |

NOTES

- Technical sessions will be held in the Tamaya ABC Rooms.
- Poster sessions will be in the Wolf Room.
- Breakfasts and lunches will be in the Hawk Room.
- Dinners on Monday and Wednesday will be in the Puma Room. Dinner on Tuesday will be in the Hawk Room.
- Speakers – Please leave at least 5 minutes for questions and discussion.
- Please do not smoke at any conference functions.
- Turn your cellular telephones to vibrate or off during technical sessions.
- Please write your name in the front of this booklet in case it is misplaced.
- Be sure to check the participant list in this booklet to confirm that your listing is correct. If there are changes or updates, please login to the ECI website and update your listing so that the list that ECI will send to all participants after the conference will be correct.

Monday, April 11, 2016

- 07:00 - 08:30 Breakfast
- 08:30 - 08:40 Opening Remarks - Conference Chair and ECI Liaison
- 08:40 - 09:30 **Conference Plenary**
Robin Batterham, University of Melbourne and Former Chief Scientist of Australia
CO₂: The good, the bad and the ugly
- Keynote panel: Reducing CO₂ emissions from the US electricity sector**
Chair: Holly Krutka, Tri-State Generation and Transmission Association, Inc.
- 09:30 - 10:00 Brad Crabtree, Great Plains Institute, USA
The critical role of CCS and EOR in managing US carbon emissions
- 10:00 - 10:30 Coffee Break
- 10:30 – 11:30 **Keynote panel (continued)**
Barbara Walz, Tri-State Generation and Transmission Association, Inc., USA
Managing CO₂ in rural America
- Matt Usher, AEP Generation
AEP perspectives on 21st century power generation
- 11:30 – 11:45 Discussion
- 11:45 – 12:00 **Invited presentation: Catalyzing the carbon utilization industry through the NRG COSIA Carbon XPRIZE**
Paul Bunje, XPRIZE
- 12:00 - 13:30 Lunch
- 13:30 - 14:45 Networking / Free time
- Carbon capture and storage - processes – I**
Chair: Carl Bozzuto, Global Resources Development & Management Company
Co-Chair: Debangsu Bhattacharyya, West Virginia University
- 14:45 - 15:10 **Invited presentation: CCS cost trends and outlook**
Edward S. Rubin, Carnegie Mellon University, USA
- 15:10 – 15:35 **U.S. DOE carbon capture program: Advancing multiple generations of carbon capture solutions laboratory to pilot scale development**
José Figueroa, US Department of Energy, National Energy Technology Lab
- 15:35 - 16:00 **Assessment of the CO₂ capture potential from irreplaceable industrial sources**
Peter C. Psarras, Stanford University, USA

Monday, April 11, 2016 (continued)

- 16:00 - 16:25 **Iron-based chemical looping processes**
Cheng Lung Chung, Ohio State University, USA
- 16:25 - 16:50 **Novel advanced solvent-based carbon capture pilot demonstration**
Erik Meuleman, ION Engineering, USA
- 16:50 - 17:15 **Cryogenic carbon capture**
Larry Baxter, Sustainable Energy Solutions, USA
- 17:15 - 17:45 Coffee Break
- CO₂ utilization – I**
Chair: Peng Pei, University of North Dakota
Co-chair: Steve Carpenter, University of Wyoming, Enhanced Oil Recovery Institute
- 17:45 - 18:15 **Update on the status and development of issues surrounding enhanced oil recovery (EOR) in the state of Wyoming**
Steven M. Carpenter, EORI at University of Wyoming, USA
- 18:15 - 18:45 **Geologic CO₂ storage using pre-injection brine production in tandem reservoirs: A strategy for improved storage performance and enhanced water recovery**
Thomas A. Buscheck, Lawrence Livermore National Lab, USA
- 18:45 - 19:15 **Electrochemical carbon dioxide reduction as an alternative source of fuels and chemicals**
Kendra P. Kuhl, Opus 12, USA
- 19:15 - 19:30 Discussion
- 19:30 - 21:00 Dinner
- 21:00 - 22:00 Poster Session / Social Hour

Tuesday, April 12, 2016

- 07:00 - 08:30 Breakfast
- 08:30 - 09:15 **Keynote:** Hans-Wilhelm Schiffer, World Energy Council, London and Consultant and Advisor to the Executive Board of RWE AG, Germany
Successes and challenges of renewables deployment in the EU power sector
- 09:15 - 10:00 **Keynote:** Chuck Kutscher, National Renewable Energy Laboratory, USA
Fulfilling the promise of the Paris Agreement: The role of efficiency and renewable energy
- 10:00 - 10:30 Coffee Break
- Energy efficiency and renewable energy**
Chair: Robin Batterham, The University of Melbourne
Co-chair: Bill Steen, AECOM
- 10:30 - 10:55 **Sunshine to petrol: Thermochemistry for solar fuels**
James E. Miller, Sandia National Laboratories, USA
- 10:55 - 11:20 **The value of CO₂-geothermal bulk energy storage to CO₂**
Jonathan D. Ogland-Hand, The Ohio State University, USA
- 11:20 - 11:45 **Factors that impact the CO₂ mitigation potential of cogeneration**
Carl Bozzuto, Consultant, USA
- 11:45 - 12:10 **Electrochemical membrane technology for carbon dioxide capture from flue gas**
Stephen Jolly, FuelCell Energy, Inc., USA
- 12:10 - 13:40 Lunch
- 13:40 - 14:00 Networking / Free time
- Carbon capture and storage - processes – II**
Chair: Debangsu Bhattacharyya, West Virginia University
Co-chair: Carl Bozzuto, Global Resources Development & Management Company
- 14:00 - 14:25 **Mist injection causes high CO₂ capture in wastewater stream**
Sanjeev Jolly, Enviro Ambient Corporation, USA
- 14:25 - 14:50 **Zerronox Corporation: Using pulsed electron beams for the removal of carbon dioxide, nitrogen oxides and other emissions from power plants**
Stephen Kennedy, Zerronox Corporation, USA
- 14:50 - 15:15 **Update on the NET Power 50 MW_{th} zero emission power station**
David Freed, 8 Rivers, USA

Tuesday, April 12, 2016 (continued)

15:15 - 15:40 **Baysian uncertainty quantification and calibration of a clean-coal design code**

Troy M. Holland, Brigham Young University, USA

15:40 - 16:05 **Predictive models of carbon capture systems and their validation using bench scale and pilot scale data**

Debangsu Bhattacharyya, West Virginia University, USA

16:05 - 16:30 **Integration of high-fidelity CO₂ sorbent models at the process scale using dynamic discrepancy**

Joel D. Kress, Los Alamos National Laboratory, USA

16:30 - 17:00 Coffee Break

CO₂ utilization – II

Chair: Steve Carpenter, University of Wyoming, Enhanced Oil Recovery Institute
Co-chair: Peng Pei, University of North Dakota

17:00 - 17:25 **Development of the first internationally accepted standard for geologic storage of carbon dioxide utilizing enhanced oil recovery (EOR) under the international standards organization (ISO) technical committee TC-265**

Steven Carpenter, EORI - University of Wyoming, USA

17:25 - 17:50 **Using geologic CO₂ storage for enhanced geothermal energy and water recovery and energy storage**

Thomas A. Buscheck, Lawrence Livermore National Lab, USA (Presentation by Jimmy Randolph, TerraCOH)

17:50 - 18:15 **Monitoring CO₂ at an enhanced oil recovery and carbon capture and storage project, Farnsworth unit, Texas**

Robert Balch, New Mexico Tech / Petroleum Recovery Research Center, USA

18:15 - 18:40 **Introduction to the Wyoming Integrated Test Center**

Jason Begger, Wyoming Infrastructure Authority, USA

18:40 - 20:00 Dinner

20:00 - 21:00 Poster Session / Social Hour

Wednesday, April 13, 2016

- 07:00 - 08:30 Breakfast
- 08:30 - 09:20 **Keynote:** Wayne Xu, Chief Technology Officer, National Institute of Clean and Low-Carbon Energy, China
CO₂ mitigation opportunities in China

09:20 - 09:50 Coffee Break

Carbon capture and storage - materials – I

Chair: Jennifer Wilcox, Stanford University
Co-chair: Simona Liguori, Stanford University

- 09:50 - 10:15 **Evaluation of physical adsorbents for post-combustion CO₂ capture**
Youssef Belmabkhout, KAUST, Saudi Arabia
- 10:15 - 10:40 **Design and testing of sorbents for CO₂ separation of post-combustion and natural gas sweetening applications**
Jen Wilcox, Stanford University, USA
- 10:40 - 11:05 **CO₂ capture using nanoporous TiO(OH)₂/tetraethylpentamine**
Mohammed Assiri, University of Wyoming, USA
- 11:05 - 11:30 **Optimal molecular design of poly (ionic liquids) for CO₂ capture from the atmosphere**
Kun Ge, Zhejiang University, China

11:30 - 13:00 Lunch

13:00 - 14:15 Networking / Free time

Carbon capture and storage - materials - II

Chair: Jennifer Wilcox, Stanford University
Co-chair: Peter Psarras, Stanford University

- 14:15 - 14:45 **Metallic membranes for N₂ separation & post-combustion CO₂ capture improvement**
Simona Liguori, Stanford University, USA
- 14:45 - 15:15 **Metal oxides with ionic-electronic conductivity for thermochemical energy storage**
Eric N. Coker, Sandia National Laboratories, USA
- 15:15 - 15:45 **Nitrogen-functionalized porous carbons for enhanced CO₂ capture**
Peter C. Psarras, Stanford University, USA
- 15:45 - 16:15 Coffee Break

Wednesday, April 13, 2016 (continued)

Negative emissions and air capture of CO₂

Chair: Klaus Lackner, Arizona State University

Co-chair: Antti Arasto, VTT Technical Research Centre of Finland

- 16:15 - 16:40 **Pathway to achieve negative CO₂ emissions - combining biomass with CCS**
Antti Pekanpoika Arasto, VTT Technical Research Centre of Finland, Finland
- 16:40 - 17:05 **Techno-economic challenges associated with biomass energy utilization and CCS**
Carl Bozzuto, Global Resources Development & Management Company, LLC, USA
- 17:05 - 17:30 **Direct air capture versus post combustion capture for coal fired power plants: Energy balance and life cycle environmental assessment**
Christoph J. Meinrenken, Columbia University, USA (Presentation by Klaus Lackner)
- 17:30 - 17:55 **CarbonCycle and other profitable strategies for air capture of CO₂**
Deane Little, New Sky Energy, USA
- 17:55 - 18:20 **Kinetic enhancement of adsorbent for CO₂ capture from atmosphere by porous material**
Tao Wang, Zhejiang University, China
- 18:20 - 21:00 Conference Banquet

Thursday, April 14, 2016

07:00 - 08:30 Breakfast and departures

List of Posters

- 1. The production of water from saline aquifers through carbon dioxide capture and storage operations**
Kelsey A. Hunter, The Ohio State University, USA
- 2. Development and planning for carbon dioxide (CO₂) capture, utilization, and storage (CCUS) infrastructure in geothermal reservoirs**
Julie K. Langenfeld, The Ohio State University, USA
- 3. Optimal Geothermal Heat Extraction using CO₂**
Iti H. Patel, The Ohio State University Main Campus, USA
- 4. Emissions and Deforestation Associated with Household Energy Use: A Case of the Thulamela Local Municipality, South Africa**
Solomon Uhunamure, University of Venda, South Africa, South Africa
- 5. Minimizing the energy and economic penalty of CCS power plants through waste heat recovery systems**
Vaclav Novotny, Czech Technical University in Prague, Czech Republic
- 6. Chemical Utilization of CO₂ for grid-scale energy storage: a prospective scenario of China and global energy connection**
Pengxiang Song, State Grid Corporation of China, China
- 7. Perspectives of pre-combustion CCS systems for central Europe**
Monika Vitvarova, Czech Technical University in Prague, Czech Republic
- 8. Techno-economic evaluation of retrofitting CCS in an integrated pulp and board mill - Case studies**
Antti Arasto, VTT Technical Research Centre of Finland, Ltd., Finland
- 9. Combined magnesium oxide/water gas shift-based CO₂ capture process**
Santosh K. Gangwal, Southern Research, USA
- 10. Development of chemical looping combustion technology for bio-CCS application**
Antti Arasto, VTT Technical Research Centre of Finland Ltd., Finland
- 11. Poly(4-vinylpyridine) as a platform for robust CO₂ electroreduction**
Ponisseril Somasundaran, Columbia University, USA
