

Dr. Jason Zhang, CEO of Zipcode Bio, is at the forefront of pioneering efforts in the RNA industry. Jason served as CSO at two previous companies, moved more than 10 programs into clinical development, and secured over \$100M in total funding. , He has Ph.D.s in Chemistry and Immunology, coupled with executive education at Berkeley Haas. Co-founding Zipcode Bio alongside recent Nobel Laureate Dr. Drew Weissman and Prof. Virgil Percec, Dr. Zhang is dedicated to advancing the next generation of RNA vaccines and therapies. The startup emphasizes targeted in vivo delivery, cost efficiency, and eliminating cold chain requirements, leveraging groundbreaking DNP technology continuously improved by its co-founders. With pipelines covering vaccines, cancer, and autoimmune diseases, Zipcode Bio stands poised to make impactful contributions to global healthcare.
