

For over 15 years at the Biomedical Advanced Research and Development Authority (BARDA) within the US Department of Health and Human Services (HHS), Ms. Sinha led partnerships on behalf of the Federal Government, working with pharma, biotech, and other product developers to bring life-saving medical technologies to market. Her focus was mainly on advanced development vaccine contracts and alternative routes of administration. Tanima brings her expertise in developing medical countermeasure to BDO as a new Director in the Biodefense & Life Sciences and Government Contracts section. Prior to her tenure at BARDA, Ms. Sinha was at the US FDA in the Division of Antiviral Products within the Center for Drug Evaluation and Research (CDER), and research experience from her time at the US Army Medical Research Institute of Infectious Diseases (USAMRIID) and the National Cancer Institute/Frederick Cancer Research & Development Center (NCI/FCRDC).

Ms. Sinha has a Master of Science in Public Health from the London School of Hygiene and Tropical Medicine, Master of Science in Biotechnology from the Johns Hopkins University, and a Bachelor of Science in Microbiology from the University of Pittsburgh.
