

**Mark R. Wiesner** holds the James B. Duke Chair in Civil and Environmental Engineering at Duke University. His work focuses on water treatment technologies and the fate and transport of materials in the environment. Dr. Wiesner holds a B.A. in Mathematics and Biology, an M.S. in Civil and Environmental Engineering, Ph.D. in Environmental Engineering from the Johns Hopkins University, and did post-doctoral work in Chemical Engineering at ENSIC, Nancy, France. Professor Wiesner is a 2004 de Fermat Laureate, the 2011 recipient of the Clarke Water Prize and was elected to the U.S. National Academy of Engineering in 2015.
