

Jon Antonucci

Jon Antonucci is currently the North American lead for process development, digital research, and artificial intelligence for BASF Dispersions. In his free time Jon is an active scouter as an executive board member with the Scouting America Palmetto Council and a den leader with Pack 109. He sits on the Winthrop University Honors College Leadership Council and is helping to develop the university's emerging engineering college. He is a father of three, a husband to a talented and compassionate scientist Teresa, and a CNC machinist and avid 3D designer
