

Timothy F. L. McKenna

Timothy F. L. McKenna is a Directeur de Recherche (DR2) at the Laboratoire de Chimie, Catalyse, Polymères et Procédés (C2P2, a CNRS laboratory), in Villeurbanne, France. He obtained his PhD in Chemical Engineering from the University of Massachusetts at Amherst, then moved to France to work with Elf-Aquitaine and Atochem on modeling polyethylene polymerization reactors. After three years with Elf-Atochem, he joined the academic world at the Laboratoire de Chimie et Procédés de Polymérisation (LCPP). He is currently a Directeur de Recherche CE with the CNRS and the director of the laboratory CP2M UMR 5128. He has authored or co-authored more than 280 papers and 10 book chapters, as well as coauthoring a book with Jo Soares on Polyolefin Reaction Engineering. He is very grateful to have had the opportunity to work with many industrial and academic partners around the world in the fields of polyolefins and emulsion polymerization.
